ABOUT THE SEMINAR

At present the entire world is fighting with Corona Virus (COVID-19) which has severely affected economy of all the countries of the world. India is no exception to it; the pandemic has affected all the sectors- manufacturing, technology, trade, transportation, consumption, education, health, tourism, capital market and more in the global market. Most of the countries of the world have resorted to big economic packages for the revival of their economies. India also has announced Rs. **Twenty Lakh Crore** Covid stimulus package for the economy to overcome the distress caused by the pandemic and the lockdown as well as to build a **“Self-reliant India” or Atmanirbhar Bharat**. India's Covid stimulus package is one of the largest packages of the world; about 10% of India's GDP in 2019-20 and would rank behind Japan (21.1%), US (13%), Sweden (12%), Australia (10.8%) & Germany (10.7%). The stimulus package is a mix of fiscal support, monetary support, and ease of doing business process as well as some fundamental reforms. This package caters to various sections including Cottage industry, MSMEs, Labourers, Middle class and Industries. The present Seminar (Online) is an assay of India's Covid stimulus package in terms of funds allocated to various sectors and its

viability to strengthen the economy and its various sectors to achieve the Self Reliant India Mission. It shall provide a platform for the experts from different fields, academicians and delegates to share their ideas and views by reviewing the stimulus package in terms of its potential to build a **“Self-reliant India.”**

ONE DAY NATIONAL SEMINAR (ONLINE)

ON
